Your apathy violates everything you claimed to believe in your life. It is the height of hypocrisy.

Do not ever contact me again.

I have kept electronic records of everything. For decades.

When the Virginia Act in congress gets passed allowing survivors recourse against abusers with no statute of limitations, there will be a reckoning. Your actions will be part of the record. I do not know what will happen, I just know i will be thorough and transparent and complete.

Best of luck on your journey.
